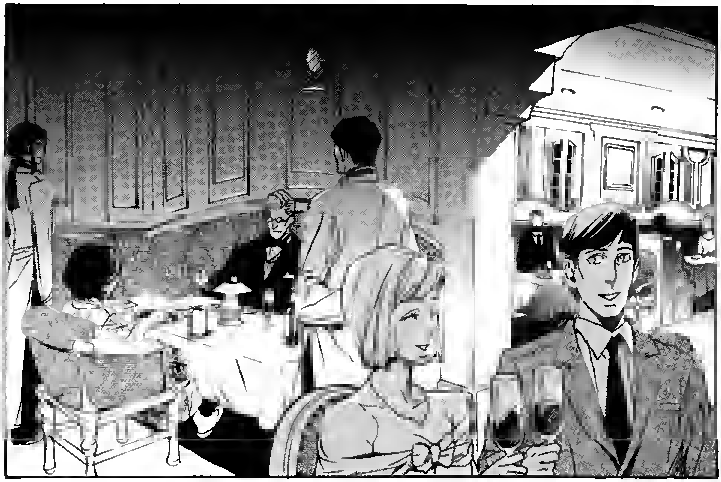
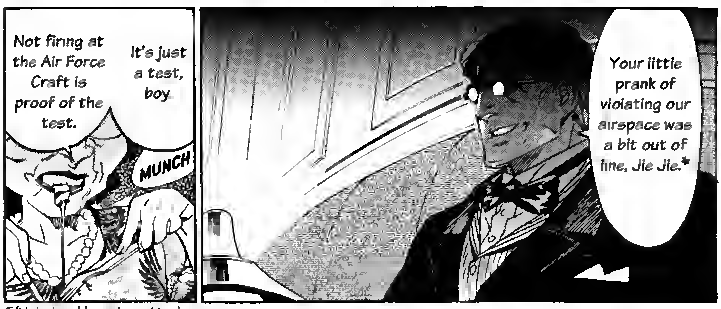
Are you the leader of the Okinawa team?
Have no fear. The star performer, Fermi-sama has arrived.
Hola, señorita!
Huh?
Fermi
.....

Round 5 Hedonism People's Feasts.

For some reason, it appeared on the land of bloodshed. But... It was enormous.
Yeah
According to the report, the pentagram appeared in Okinawa and I believe that the upper echelons of the US military are somehow involved.
Now that you mentioned it, why did we have to meet up with you? It's such a sausage feat here.
Anyway, how's Connie doing?
It's smaller than Afghanistan's.
So, I'm getting bullied here. Oh, wait for me, honey
Wiley holds you in high regard, but you better put your REAL JOB before your mumble-jumble Physics stuff
In Okinawa, you're going to follow my orders. The situation here is different from Afghanistan.
Aw
maaan
Connie is on a stakeout with Wiley to observe the Lieutenant Colonel.





Not firing at the Air Force Craft is proof of the test.
It's just a test, boy.
MUNCH
Your little prank of violating our airspace was a bit out of line, Jie Jie.*

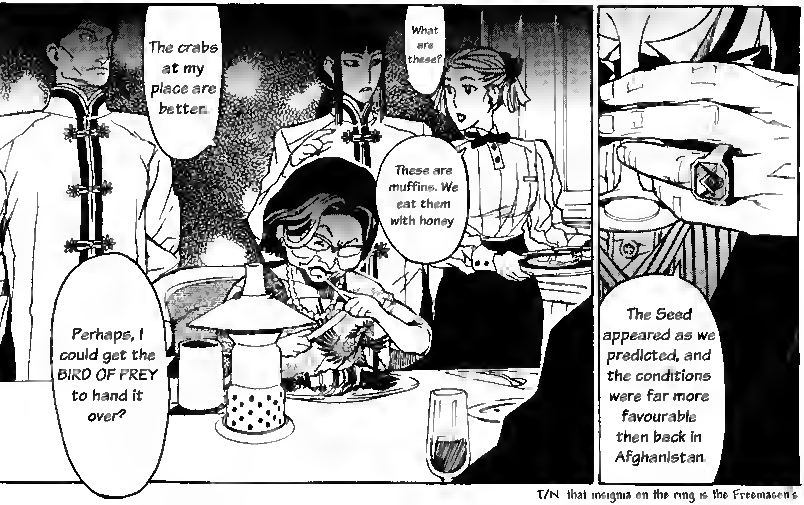
T/N: The Grand Lodge is the governing body of the Freemasons
The kanji indicates that it is referring to the London Grand Lodge i.e. the Premier Grand Lodge of England

What do you mean circumstances? Even though you didn't have the Grand Lodge's permission, you went ahead and made a pentagram!
CLINK
Don't be in such a rush. We have our own circum-stances.



The crabs at my place are better.
What are these?
These are muffins. We eat them with honey
Perhaps, I could get the BIRD OF FREY to hand it over?
The Seed appeared as we predicted, and the conditions were far more favourable then back in Afghanistan.

T/N: that insignia on the ring is the Freemason's

This is a national matter, is it not?
But unlike you, boy, I am a patriot
it prefers that your side works hard at doing your REAL JOB
We would also like you to have the Nanjing Plan prepared.
We will give no more than three hundred million dollars to the Chinese government.
The Chinese people will never do anything to sacrifice fellow countrymen's lives.

If it was up to me, I would do it in a more elegant manner.

—Let me teach you something.
Hmph!
Well then, report it to headquarters.
I finished the investigation the other day.
The helicopter crash at Ameku was an accident.

Our three-day stake was worth it.
To think there is a communist in the American military, eh.
I was surprised to see Liu from the Chinese State Security here in Okinawa, but...
That lieutenant colonel... should have various secrets waiting to be uncovered.
Connie, don't stare too much
It's fine, there are a lot of customers here today.
I'm telling you, it's too dangerous Leave it to the shadow team outside.
Why? We can't give up a chance like this!
Let's tail the two of them.
Also, haven't you had a lot to drink already?
Hic ...
Keiko
No, I won't allow it.

Ladies and gentleme~~n
Welcome to Samantha's one-night only mermaid show! ♡
I don't mind if certain parts, of the more impatient members, of the audience,
stand erect even when they're sitting! ♡

Excuse me.
H-hey, isn't that Dr. Orlanshaw?
Get outta here ASAP, Wiley. Ignore her! Ignore her!

Isn't that Connie, the National Geographic photographer? So you came all the way here, hm—!

Here's a question for you. Where's the vagina located on a mermaid?
TEE HEE
So, WHAT!?
Smirk ~!
Sigh. Geez
Why is someone as great as you here?! They call you the brains of America, you know?
...Please don't!

Now, now. If you don't hurry up and answer, I'll disappear into the foam.

Why did they send this idiot of a leader?!
The perverted pheromone man, Fermil!

I thought I got an African shaman to curse you to death!
Heh
A one night stand with that shaman was more than enough to undo the curse!
You can't trust a virgin shaman!
Instead, I got her to wish misfortune on you.

What in hell are you up to!?
Well duh, isn't it obvious! It's to prove the existence of 'Lequios'!!
Begone, commoner!!
PUCKER
'Lequios' won't appear in the three-dimensional space
L-let me just say this,

The center of the penta-gram
Should turn into the point of a ring-like rotating black hole, to which Physics doesn't apply.
One Two
I know. That's why people make pentagrams like the one in Ameku.
A monopole's mass is ten to the power of 16GeV**, which is heavy enough to open up a bottomless abyss in Earth.
In other words, we detected a mass that can't be anything but a magnetic monopole* appearing in Ameku.
But this is now possible because of---- magic!!!
That pentagram!!!
Normally, you would need a particle accelerator of at least a thousand light years in diameter to generate this energy.

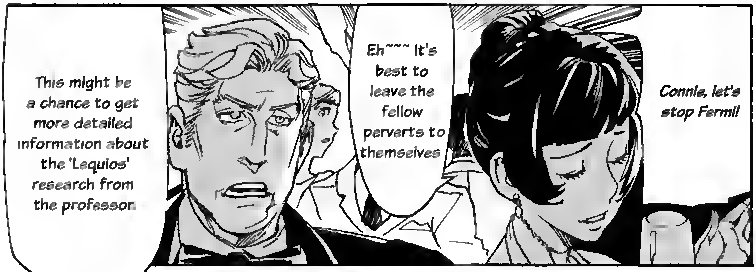
T/N based on Wiki, America has a circumcision rate of around 58% the majority of Europe has less than 20%

If you keep covering your head, then you'll never be able to come up with the Grand Unified Theory
Shuddup! I was born in Europe!



Samantha, you retard---!

Normally, you would need to schedule an interview with my agent, but seeing as it is you, Connie, I'll let it slide.
Thank you very much.
Well then, let's do this the day after tomorrow. Let's meet at the Crystal Palace, my resort hotel.
Conne dear, don't worry about a single thing.
HEHEE
I look forward to seeing you in that swimsuit.
Oh, by the way, let's make the front page my vagina, okay?
